Schnitzelburg NEIGHBORHOOD PROFILE June 2022

A Partnership Between Metro United Way and the Kentucky State Data Center at the University of Louisville

This profile uses census tracts to approximate neighborhoods. Census tracts are statistical units used by the Census Bureau to enumerate data within small areas, and typically align well (but not perfectly) with traditional neighborhoods.

Population age 65 and over below 200% of the FPL	114	28%	25%	25%

Poverty Status

Poverty status is determined by comparing a family's income to defined income thresholds that vary by family size and composition. If a family's total income is less than the established threshold for a family of that size, then that family and every individual in it is considered in poverty. The official poverty thresholds do not vary geographically, but they are updated for inflation annually. The official poverty definition uses money income before taxes and does not include capital gains or non-cash benefits (such as public housing, Medicaid, and food stamps).

The 2022 Poverty Guidelines as established by the U.S. Department of Health and Human Services:

Number of persons in household	Poverty guideline
1	\$13,590
2	\$18,310
3	\$23,030
4	\$27,750
5	\$32,470
6	\$37,190
7	\$41,910
8	\$46,630

Poverty Status of Families

	Schnitzelburg		County	MSA
	Estimate	Percent	Percent	Percent
Families	875	_	186,716	314,935
Families below federal poverty line (FPL)	54	6%	10%	8%
Families below 150% of the FPL	75	9%	16%	15%
Families below 185% of the FPL	111	13%	21%	20%
Families below 200% of the FPL	181	21%	24%	22%
Families with related children	352	40%	46%	46%
Families with related children below FPL	16	2%	7%	6%

An **unemployed** person is someone who does not have a job, but is actively looking for a job and is available for work. The unemployment rate is calculated as the number of unemployed persons in an age group divided by the sum of the number of employed and unemployed persons in that age group.

A person who is **not in the labor force** is someone who does not have a job, and is not looking for one. This includes students, retirees, those taking care of children or other family members, and others who are neither working nor seeking work. The rate of labor force participation is calculated as the number of persons not in the labor force in an age group divided by the population in that age group.

Labor Force Status

	Schnitz	Schnitzelburg		MSA
	Estimate	Percent	Percent	Percent
Age 16-19—Unemployed	4	17%	13%	13%

Works at home	388	14%	7%	7%	

Data Source: U.S. Census Bureau, 2016-2020 American Community Survey. Note: Except for "Works at Home", estimates limited to population who commute. Percentages may not sum to 100 due to rounding.

"Place of Work" identifies jobs located within the neighborhood and held by workers from inside or outside of the neighborhood. "Home Neighborhood of Worker" identifies jobs held by neighborhood residents, which may be located *inside* or outside of the neighborhood. The workplace is based on the administrative address, and may or may not be the location that a worker reports to most often.

Jefferson County Public Schools

Schnitzelburg neighborhood is highlighted in yellow. Thick dashed lines represent school catchment area boundaries.

Neighborhoods in Jefferson County

Jefferson County Public Schools students are assigned to a "resides" (home) school, and for elementary students a cluster, based on their home address. Students may attend their resides school, other schools within the cluster, or apply for traditional and magnet schools within the district. There are also alternative schools serving particular segments of the population. The maps on this page

Middle Schools

show only the "resides" schools for students within a particular neighborhood. Additional information on JCPS student assignment – which has recently been revised – can be found on their website.

Neighborhoods in Indiana

Indiana schools have open enrollment policies that allow for intra-district and inter-district transfers. The maps on this page show only the schools assigned to a student within a particular neighborhood based on their home address. Additional information on open enrollment policies can be obtained from individual district offices.

	Schnitzelburg		County	MSA
	Estimate	Percent	Percent	Percent
Population with a disability	498	12%	14%	14%

Food Access

	Schnitzelburg	Jefferson County
Population who are low income and do not live close to a grocery store	0	92,837
Census tracts designated a food desert	0	36

Crime (2019)

	Schnitzelburg	County	MSA
Violent crimes	47	13,314	16,031
Violent crimes per 100,000 population	1,107	1,728	1,262
Property crimes	195	29,085	34,867
Property crimes per 100,000 population	4,595	3,775	2,744

Neighborhood crime includes only incidents reported to Louisville Metro Police Department— it does not include incidents reported to other local agencies. County and MSA crime includes incidents reported to all agencies.

Data Source: U.S. Census Bureau, 2016-2020 American Community Survey. ESRI Business Analyst. FBI, Uniform Crime Reports. Louisville Metro Police Department. Note: Population who are low income is defined as living at or below 200 percent of the federal poverty line. Within an urban area, not living close to a grocery store is defined as living further than one mile from a full service grocery store. Food deserts are defined at the census tract level, when the tract is considered low income and low access. A tract is considered low income if the tract's poverty rate is 20% or greater, or if the tract has a median family income less than or equal to 80% of the metropolitan area's median family income. A census tract is considered to have low access if a significant number (at least 500 people) and share (at least 33%) of individuals in the tract are greater than one mile from the nearest grocery store.

HEALTH CHARACTERISTICS

HEALTH CHARACTERISTICS

Drug Overdose Mortality

The age-adjusted rate of drug overdose deaths in Jefferson County was 37 deaths per 100,000 standard population.

Due to the small number of observations, a drug overdose mortality rate was not calculated for individual neighborhoods.

Infant Mortality

For every 1,000 live births in Jefferson County there were 6.2 infant deaths.

Due to the small number of observations, an infant mortality rate was not calculated for individual neighborhoods.

Data Source: Kentucky Cabinet for Health and Family Services. Note: Mortality data covers the period 2015-2019.
